

How to set up each user for the Document Search feature in Time Matters

Select the DOCS Index

For each Time Matters user, log into Time Matters as that user and perform the following steps.

1. Go to Time Matters Main Menu / Search / Document Search
2. Click the Index(es) lookup button.
3. Click **Add** button to add the DOCS index.
4. Click OK.

Perform a Search

This step is needed to save the **Index(es)** setting.

1. Enter an unusual search word, like "aardon"
2. Click **Search**.

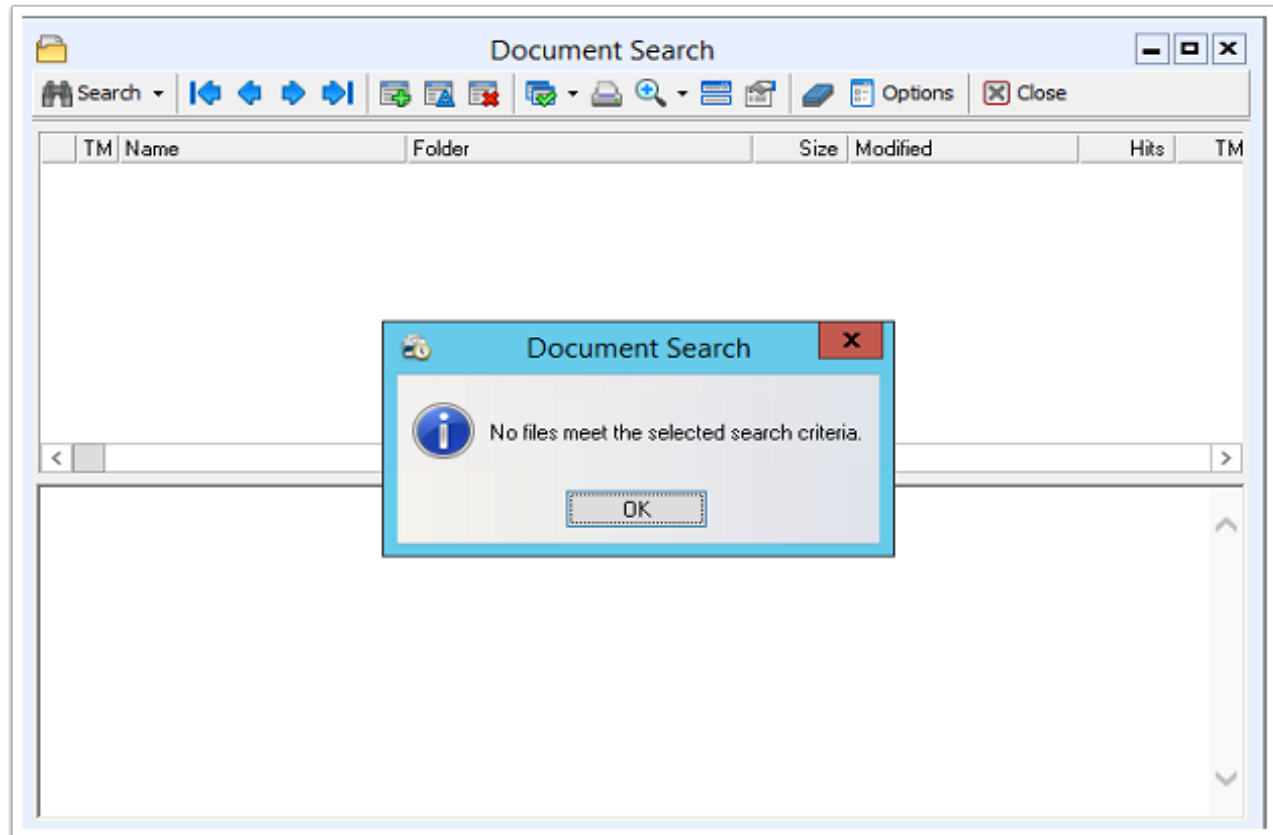

The screenshot shows the 'Search In Documents and Files' dialog box. It is divided into three sections:

- 1. Document/File Name, Contents, and Location**:
 - File Named**: A dropdown menu with 'x*' selected.
 - Containing Text**: A text input field containing 'aardon', highlighted with a red circle and the number '1'.
 - Index(es)**: A dropdown menu with 'DOCS\Client Documents' selected.
 - Drive/Folder**: A dropdown menu with a drive letter and folder path.
 - ☒ **Include Subfolders in Search**
- 2. Document/File Dates**:
 - Find Dates**: A dropdown menu with 'All' selected.
 - ☒ **From**: A date input field with '4/06/2017'.
 - To**: A date input field with '4/06/2018'.
 - ☐ **In the Last**: A dropdown menu with '30' selected.
 - Days**: A dropdown menu with 'Days' selected.
- 3. Document/File Size and Exclusions**:
 - File Size From**: A dropdown menu with 'KB' selected.
 - To**: A dropdown menu with 'KB' selected.
 - Exclude Names**: A text input field.

At the bottom of the dialog box, there are four buttons: **Options**, **Clear**, **Search** (highlighted with a red circle and the number '2'), and **Cancel**.

Close Document Search

Click the **Close** button, upper right.
